8) **240 Kinneman Road Runoff** — Tom Stylc met with the Zoning Officer and the Conservation District onsite to discuss this issue. There is runoff from the farm that runs into a 48” culvert and then into the township’s 36” culvert. The homeowner thought the 48” culvert was the township’s responsibility, which it is not. Replacing the culvert will not address the home owner’s problem. The Conservation District was at a loss at how to resolve this problem. At the edge of the property is a sinkhole on the inlet side, which the township can fill in.
